Manuscript Checklist: Systematic Reviews and Meta-Analyses

Manuscripts of this type are detailed, critical surveys of published research relevant to clinical problems. Systematic reviews should include a clear objective, a description of the data-selection and data-exclusion process, and a discussion of the research implications.

☐ Cover letter addressed to AOA Editor in Chief Robert Orenstein, DO, with any special requests (eg, rapid review) noted and justified
☐ A title page including the following information about all authors:
  ☐ full name, title, and affiliation
  ☐ contact information
  ☐ financial disclosures
  ☐ contribution using language provided by the International Committee of Medical Journal Editors, as follows: "[Author(s)] provided substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; [Author(s)] drafted the article or revised it critically for important intellectual content; [Author(s)] gave final approval of the version of the article to be published; and [Author(s)] agree to be accountable for all aspects of the work in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved."

☐ Structured abstract, limited to 350 words (see http://jaoa.org/ss/abstract.aspx)
☐ An acknowledgment section with a concise, comprehensive list of the contributions made by individuals who do not merit authorship credit and permission from each individual to be named in print
☐ Figures as separate, high-resolution JPG or TIF files
☐ Data points of charts in the case that the JAOA must recreate figures to ensure they are of reproduction quality.
☐ Permission to reprint or adapt tables, figures, and illustrations from the publisher both in the JAOA’s print and online versions (see http://jaoa.org/DocumentLibrary/ReprintPermissionRequest.pdf)
☐ 1 to 4 CME questions in multiple choice format with a brief explanation of the correct answers
☐ These reviews should be a maximum of 3500 words with no more than 75 references and 4 tables or figures.
☐ For reporting recommendations, see the EQUATOR site for the following guidelines:
  ☐ PRISMA reporting guideline for systematic reviews and meta-analysis
  ☐ MOOSE reporting guidelines for meta-analysis of observational studies
